WEATHER OF CONCERN

Weather of Concern

- Cooler weather will continue to end the week but will become more seasonal for the weekend. Isolated showers and t-storms will be possible in the valley on Wednesday and scattered storms are expected in the higher elevations during the afternoon and evenings.

Weather Advisories, Watches, and Warnings currently active in California:

Active Weather Warnings, Watches and Advisories by County:

- <http://www.wrh.noaa.gov/hazardSummary/?state=ca&bycounty=1>

WEATHER SYNOPSIS BY REGION

NORTHERN CALIFORNIA

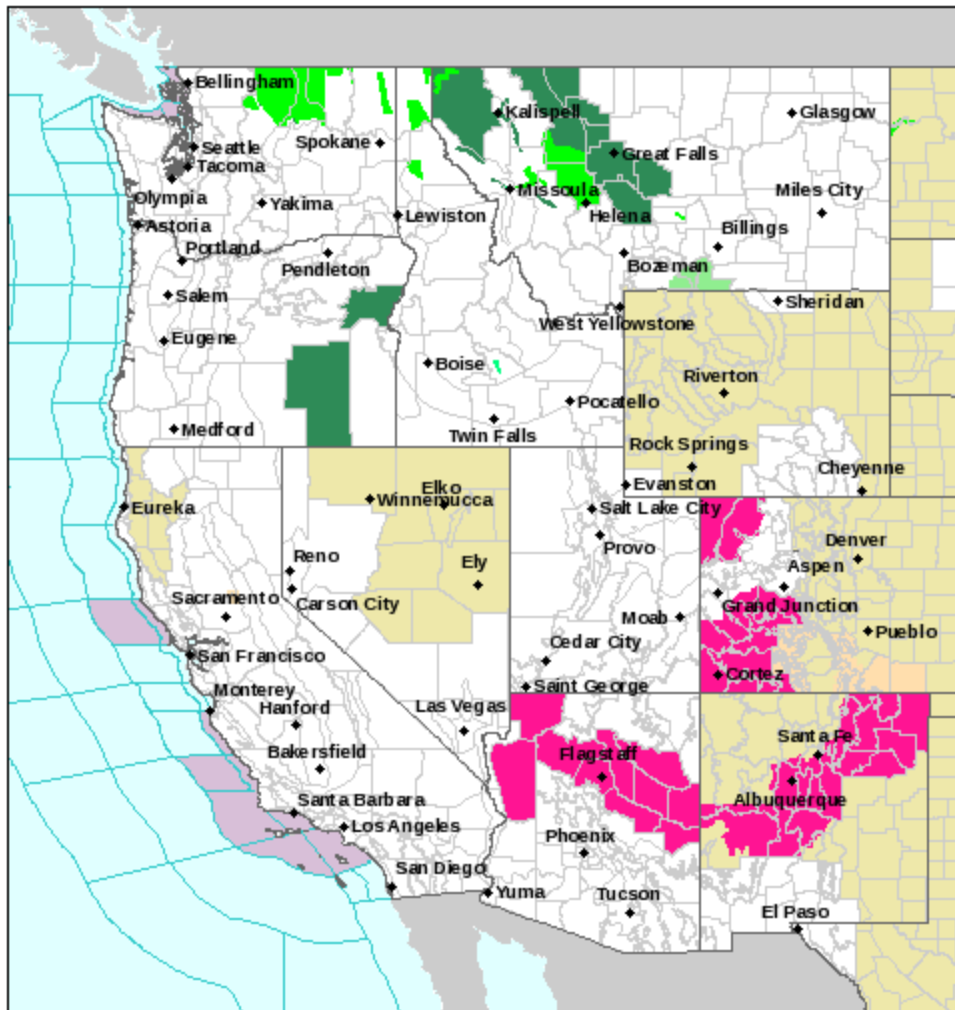

An unsettled weather pattern under a series of low pressure systems will move through over the region next 7 days. Scattered, mostly northern and eastern mountain showers/isolated thunderstorms are possible into next week, most will be widespread today including the Sacramento Valley. Showers/thunderstorms will be least active on Fri/Sat and there will be little, if any, such action in the greater Bay Area on all days. Temperatures will generally remain near to a bit above seasonable values all week, with the warmest inland areas in the 80s. Areas of gusty afternoon S to W winds are expected today, and areas of gusty W to N winds on Thursday and Friday.

SOUTHERN CALIFORNIA

An area of low pressure currently over Central California will move slowly east into Nevada Thursday and into Utah Friday. This low pressure will cause temperatures to be around 5 degrees below normal through Friday, with mid 50s to mid 60s across the mountains and upper 60s and 70s in the valleys. A weak ridge of high pressure will build toward the California Coast from the southwest causing temperatures to warm a couple degrees this weekend. Cooling will take place once again early next week as another low drops into California from the Pacific Northwest. Instability will bring isolated afternoon showers and thunderstorms to the Sierra through early next week. Westerly afternoon and evening winds of 20 to 30 mph with gusts to 50 mph will surface across the mountain ridges and desert passes through early next week.

Cal OES
GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

Cal OES LAW ENFORCEMENT MISSIONS

Closed Cal OES Law Missions

- **2018-LAW-46782, 05/15/18, 1915 hours:** The International Emergency Response Coordination Center (IERCC) advised of an InReach “SOS” activation at GPS coordinates 41.590730N, -121.688390W plotting on USFS Rd. 77 East of Harris Springs Rd. in Siskiyou County. IERCC advised they were in communication with the registered owner (R/O) who reported he had rolled his grey Toyota Tacoma truck in a single vehicle accident. R/O reported he had no injuries and no passengers with him. At 1919 hours, the Cal OES Law Enforcement Branch Duty Officer (LDO) relayed the activation and situation to Siskiyou County Sheriff’s (SCSO) Dispatch who advised they would be notifying the local US Forest Service Law Enforcement Officer (USFS LEO) to handle. **Update: 05/15/18, 2000 hours:** USFS LEO contacted the LDO and advised he was responding to the given coordinates. **Update: 05/15/18, 2207 hours:** SCSO advised USFS LEO located R/O at given coordinates and transported him to the town of Weed and will make arrangements to tow the truck out on 05/16/18. SCSO advised the R/O had no injuries and did not require medical aid. IERCC was updated. **Mission Closed.**
- **2108-LAW-46775, 05/15/18, 1545 hours:** The Air Force Rescue Coordination Center (AFRCC) advised of a PLB activation at GPS coordinates, 33° 32.2N, -117° 41.2W plotting in a Laguna Nigel neighborhood just East of I-5 in Orange County. AFRCC advised there was no registration information. At 1558 hours, LDO talked with AFRCC and learned of a no detect pass, which they will continue to monitor but do not believe this to be distress related. **Update: 05/15/18, 1742 hours:** AFRCC advised they have had three subsequent no detect passes and will be closing out their mission. **Mission Closed.**
- **2018-LAW-46688, 05/11/18, 0657 hours:** The Air Force Rescue Coordination Center (AFRCC) advised of a possible ALNOT involving a Beechcraft Model 76, Tail# N803FC, with two souls on board scheduled to fly on 05/10/18, from Santee to Victorville and return to Gillespie Field in San Diego County. AFRCC advised ramp checks had been conducted with negative results. At 0723 hours, the Cal OES Law Enforcement Branch Duty Officer (LDO) requested Civil Air Patrol (CAP) be activated and AFRCC opened mission #18M0289A. At 0756 hours, LDO spoke to San Diego Sheriff’s Department (SDSD), who confirmed they were assisting CAL FIRE with a fire that was believed to be from a small plane crash that occurred 05/10/18, in the area of Volcan Mountain. Based on the last known position of the ALNOT, it is suspected this may be the same plane which crashed last night. SDSD is on scene but cannot make access to the site for identification until the fire is stopped. LDO updated AFRCC. **Update: 05/11/18, 1720 hours:** SDSD advised ground teams made it to the suspected crash site but were unable to positively identify the plane or any victims due to access issues caused by the fire. SDSD advised the site had been secured and they would assist with Medical Examiner (ME) and NTSB investigators on 05/12/18. LDO updated AFRCC and requested CAP resources be released. **Update: 05/12/18, 1410 hours:** SDSD advised they are still unable to positively identify the plane or victims due to the current fire situation. SDSD planned to respond and assist the ME and NTSB investigators in the early morning of 05/13/18. **Update: 05/13/18, 1943 hours:** SDSD advised they had secured the remains of three victims and had provided information to the NTSB for identification purposes of the plane. SDSD planned to extract the three victims by helicopter on Monday, 05/14/18, pending current weather restrictions. Positive identification of the victims and plane are still pending further investigation. **Update: 05/15/18, 0718 hours:** SDSD advised the identification process continues. **Update: 05/15/18, 1324 hours:** SDSD advised plane positively identified by engine number as the Beechcraft Model 76, Tail# N803FC. LDO updated AFRCC. **Mission Closed.**

Emergency Management Assistance Compact

- **2018-Cal OES-46751:** The State of Hawaii requested one (1) Geothermal Subject Matter Expert (SME) from the California Department of Conservation, Division of Oil Gas & Geothermal Resources, to provide support to the volcanic activity occurring in Hawaii. The SME has industry and regulatory experience, as well as knowledge of geothermal wellhead construction, operations, processes, risk management, and mitigation. The SME arrived safely in Hawaii on 05/13/18, and is anticipated to return to California on 05/19/18.

Cal OES MISSION TASKING

Cal OES Missions

- **2018-IREOC-45244:** Caltrans to remove dead and dying trees along highways in Kern, Tulare, Fresno, Madera, Mariposa, Tuolumne, Calaveras, Butte, Plumas, Sierra, Shasta, and Lassen counties. (On Scene – Long-term assignment)
- **2017-SOC-44098:** CalRecycle Debris Management Team in Ventura County (Coordinating)
- **2017-SOC-43821:** DTSC to remove household hazardous waste from over 500 residential lots in Ventura County (On Scene)
- **2017-Inland-42559:** Weather station installed to gather real time rainfall data by Air Resources Control Board (On Scene)

Cal OES

GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
